EEC About Us

Welcome to EEC, where engineering meets innovation and construction is an art. As a leading construction company, we are committed to shaping the future through precision, quality, and visionary thinking. With a rich history of successful projects, EEC has become synonymous with excellence in the construction industry.

EEC Vision

At EEC, our vision is to be the vanguard of engineering brilliance, setting new benchmarks in construction. We aspire to be a catalyst for positive change, creating structures that stand as testaments to both functional efficiency and aesthetic appeal.

EEC Mission

Our mission is to construct not just buildings but environments that inspire, transform, and contribute to the sustainable development of communities. We aim to be a force driving innovation in construction methodologies and technologies.

EEC Key Strengths

Expertise: With a team of seasoned professionals, EEC brings unparalleled expertise to every project.

Innovation: We embrace the latest technologies and construction methods to ensure efficiency and sustainability.

Quality Assurance: Our commitment to delivering the highest quality is ingrained in every aspect of our work.

Community Focus: Beyond construction, we actively engage with and contribute to the communities we operate in.

EEC Our Impact

From towering structures that reshape skylines to community-centric projects that enhance living standards, EEC has left an indelible mark on the landscape. Our projects not only meet the needs of the present but are designed to adapt and thrive in the future.

EEC What Sets Us Apart

Custom Solutions: Tailoring our services to meet the unique requirements of each project.

Safety First: A rigorous commitment to safety standards to ensure the well-being of our teams and communities.

Sustainability: Integrating eco-friendly practices into our construction processes to contribute to a greener future.

Global Presence

With a footprint that extends globally, EEC has successfully executed projects in diverse environments, demonstrating adaptability and a keen understanding of cultural nuances.

Portfolio

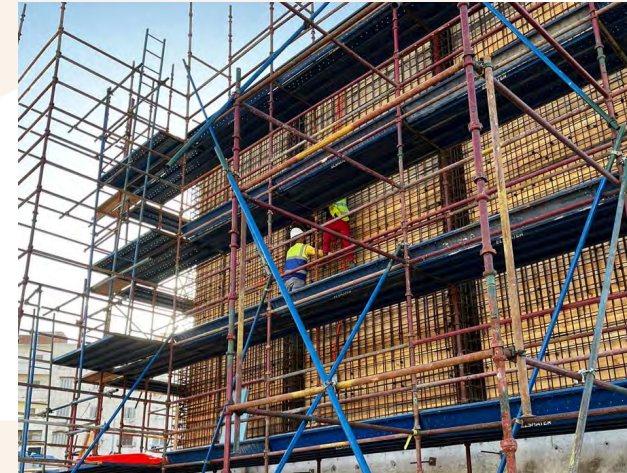

EEC Alexandria Port

Project: The 66kV Power Station

Contracting Entity: El Sweedy Electric Trading and Distribution T&D.

Services Provided: Civil engineering and electrical installation works.

EEC involvement in the Alexandria Port project includes civil engineering and electrical installation services for the 66kV Power Station.

EEC Electric Bus Charging Station Sharm El-Sheikh

Project: Electric Bus Charging Station

Contracting Entity: El Sweedy Electric Trading and Distribution T&D.

Services Provided: Civil works (concrete and steel structures) and electrical installation works.

EEC Company is responsible for providing civil engineering services, including concrete and steel structures, as well as electrical installation services for the Electric Bus Charging Station project in Sharm El-Sheikh.

Southern Valley Development Project in Toshki Region 375,000 Acres Reclamation

Project: Southern Valley Development Project

Contracting Entity: El Sweedy Electric Trading and Distribution T&D.

Services Provided: Development of main and sub-main water networks.

Southern Valley Development Project in Toshki Region 375,000 Acres Reclamation

Project: Southern Valley Development Project

Contracting Entity: El Sweedy Electric Trading and Distribution T&D.

Services Provided: Infrastructure works, including main and sub-main water Electric Grids and road construction.

EEC Drinking Water Station in Kafr Nasser Village, Beni Suef Governorate «حياة كريمة»

Project: Drinking Water Station in Kafr Nasser Village, Biba Center – Beni Suef Governorate – Under the Development Projects for Egyptian Rural Villages «حياة كريمة»

Contracting Entity: Factory 270 El-Harbi – Qaha Contracting Company.

Services Provided: Construction of a drinking water station in Kafr Nasser with a capacity of 34,000 m³ per day.

EEC Sanitary Sewage Stations and Force Mains in Qus Center, Qena Governorate «حياة كريمة»

Project: El Sweedy Electric Trading and Distribution Company.

Contracting Entity: El Sweedy Electric Trading and Distribution T&D.

Services Provided: Construction of water and sanitary sewage network stations and lifting stations.

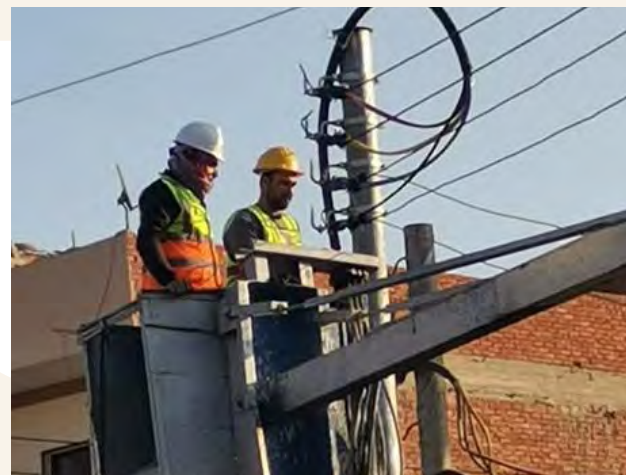

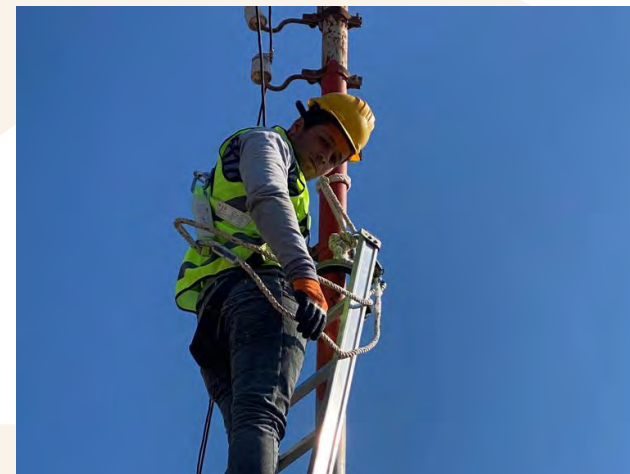

EEC Community Development Project in Al-Husseiniya , Sharkia Governorate «حياة كريمة»

Project: Community Development Project

Contracting Entity: El Sweedy Electric Trading and Distribution T&D.

Services Provided: Infrastructure works, including electrical installations (cables, towers, poles, transformers, and medium and low-voltage distribution), as well as street lighting installations.

EEC Project P1 Park, Tenth of Ramadan City

Project: Implementation of infrastructure works for Project P1 Park – Tenth of Ramadan City

Contracting Entity: El Sweedy Electric Trading and Distribution T&D.

Services Provided: services Provided: Civil works construction for the industrial areas street lighting installations.

Sinai Project.

Project: WPS22/66/220 2- KV GLS S/S.

Contracting Entity: El Sweedy Electric Trading and Distribution T&D.

Services Provided: Civil engineering works and electrical installations.
